Details of CoBL Change Request**Background Reason for Change**

Two New Supplier Ids for inclusion in COBL.

Description of Change

Update COBL Spreadsheet Data Code Data Items "Senders ID" as follows:

- Add New Data Code Value S42 with description "Open Electric" and set "Valid in NI" to "YES"; Set "Valid in Rol" to "No"
- Add New Data Code Value S43 with description "Click Energy NI" and set "Valid in NI" to "YES"; "Valid in Rol" to "No".
- Sender ID/Supplier ID needs to change in all 89 messages.

Appendix A

CoBLCR Criteria

This form invokes an accelerated change process to introduce new code values for non-enumerated (non schema validated) codes/fields that already exist in the retail market design OR corrections or amendments to the CoBL document only (i.e. non conformances that are limited to non technical changes). Coded value changes will be implemented outside of a market release by the DSOs.

Changes to the CoBL will be effected through a Co-ordinated Minor Market Release (Co-MMR) i.e. documentation change to the baseline only.

Code Changes:

To be eligible for this process, a code field must:

- *already exist in the retail market design:*
 - *Be in the current version of the market design*
 - *Be in the current version of the XML schema*
- *Be a non-enumerated code:*
 - *The current version of the XML schema does not list the permissible values of the code i.e. schema validation is on length, type and/or format only not on actual code.*
 - *The CoBL contains the list of values for informational purposes.*
 - *Market participants may or may not process the code in their back end systems in order to meet their licence and/or assurance obligations.*
 - *If the code is used, the CoBLCR forms the communication mechanism for informing Market Participants of changes or additions to codes within the CoBL.*

Non Conformances

- *A CoBL non conformance can be defined as a textual error within the CoBL documentation. It will NOT involve any change to the XML schema.*
- *Examples of a CoBL Non Conformance include but are not limited to:*
 1. *Data item omissions from the data item tab*
 2. *Inconsistent representation of data items across tabs*
 3. *Missing Attributes/information from data items.*
 4. *Cosmetic inaccuracies (spelling, grammar etc)*
