Part 1 DETAIL OF DISCUSSION REQUEST / MARKET CHANGE REQUEST	
Requesting Organisation(s)	ESB Networks
Request Originator Name	Carl Murphy
Date Raised	21/09/2021

Classification of Request	
Change Type	Non-Schema Impacting

Detail of Request	
Reason for Request	

Background

On 29th June 2022 CRU briefed Market Participants regarding a suite of measures they were considering to introduce. One of the measures under consideration was the introduction of a peak tariff between 17:00 – 19:00.

On 18th August 2022 CRU published a consultation [“Electricity Network Tariffs 2022/23 – National Energy Security Framework Response Proposals”](#) which further proposes the introduction of a peak tariff for a number of DUoS Groups. CRU also briefed Market Participants on the consultation on 18th August 2022. CRU have indicated that a decision will be made on the consultation on the 15th of September.

ESB Networks are exploring what these changes will mean from a Retail Market Design and Central Market Systems perspective.

Although a CRU consultation decision is yet to be made, ESB Networks are raising this MDR to provide visibility to Market Participants of the changes to be expected to the Retail Market Design if CRU’s decision on the 15th September is to implement peak time of use tariffs from 1st October 2022. The intention is that visibility will prove useful for Market Participants and mitigate some of the risk of a very aggressive implementation timeline.

Scope of MDR

This MDR will focus on the changes required to introduce peak TOU billing for the following DUoS Groups:

- DG7
- DG7A
- DG7B
- DG8
- DG8A
- DG8B
- DG9
- DG9A
- DG9B

Out of Scope of MDR

Mechanisms are already in place to facilitate the peak TOU billing for DG1, DG2 and DG5 MPRNs. Suppliers are not billed for DUoS by ESB Networks for DG10 MPRNs.

Proposed Solution

The only area of Retail Market Design that is required to change is the DUoS area. There are no changes to other areas of the Retail Market Design. The changes are summarised as follows:

The new peak Time of Use (TOU) will be for the hours of 17:00 to 19:00 each day. The changes will be effective from 01.10.2022.

The introduction of the new peak TOU is for DUoS Groups:

- DG7
- DG7A
- DG7B
- DG8
- DG8A
- DG8B
- DG9
- DG9A
- DG9B

All MPRNs in the above DUoS Groups will be billed for DUoS with the new peak TOU tariff where the read date being billed is >= 01.10.2022.

The following backing documents that accompany a DUoS invoice will be changed:

- MPRN Level Invoice Item Detail
- DUoS Group Summary Report

Updates to the MPRN Level Invoice Item Detail:

There will be 6 new fields inserted into the file after field 28 and before field 29 to give the following new fields:

Field	Description	Start	End	Field	Description
29	QH Day Off Peak KWH	08:00:00	16:59:59	30	QH Day Off Peak Charge
		19:00:00	22:59:59		
31	QH Night Off Peak KWH	00:00:00	07:59:59	32	QH Night Off Peak Charge
		23:00:00	23:59:59		
33	QH Peak KWH	17:00:00	18:59:59	34	QH Peak Charge

Rows 1 & 2 above are included in the above sample file for illustrative purposes only, these descriptions are not included in the actual file.

Updates DUoS Group Summary Report:

There will be 6 new columns inserted into the file before the Total Net Charges column to give the following new columns:

QH Day Off Peak		QH Night Off Peak		QH Peak	
kWh	Charges	kWh	Charges	kWh	Charges

Changes will need to be made to the following Briefing Documents from Retail Market Design Documentation to reflect this change:

- DUoS, Transaction and PSO Payment Process
- Supplier Communications Resulting from DUoS Billing & Invoicing
